

Class routines:

Reading books

Please read with your child where possible, even if it is for a few minutes. Remember our book change day is Monday but send your child in with their reading pack each day. Do not forget to initial their reading grid.

Homework

Continue to work on our homework challenges and send them in for us to celebrate. It has been lovely to see some children practicing their writing at home.

Spellings

As usual they will be sent out on a Friday and tested on a Friday – I have put some ways of practicing on our class page on the website.

Design and Technology

We are going to be developing our sewing skills this half term. We will learn the different types of stitches and then put this into practice to join two pieces of materials.

Geography

This half term we will develop our knowledge on where we live. We will be using aerial photos and maps to study our local area and identify the human and physical features.

PE:

This half-term our PE day is **Tuesday**. Our focus in dance and we will be looking at movement, expression and shape.

Music:

This half-term we will learning to sing our nativity songs from memory for an audience.

English:

This half-term we will be focusing on our class nativity 'Baubles'. We will be exploring the script and becoming familiar with the story. We will compare the layout of our script to a story to help us understand how to read a script. Then we will delve into the different characters and understanding their personalities.

Mathematics:

This half-term all pupils will begin looking at calculations within twenty. We will start by looking at adding three 1-digit numbers and learn how to make efficient choices when deciding in what order to add the three addends.

Religious Education:

This half-term we are learning about why Jesus is special to Christmas. We will learn about the nativity story how some Christians believes Jesus was a special baby.

Science:

In Science we will be exploring seasonal changes. We will look at ways of identifying different seasons and how nature changes/adapts each season. We will then link the seasons with what celebrations might happen at those points of the year. Furthermore, we will be doing some weather watching and reviewing what changes we see week by week.

Computing:

This half-term children will practice and develop their laptop skills and learn how to use Microsoft word. We will focus on how to use the different features of word and then apply these to write about ourselves.

Autumn 2 – Hazel Class
