

Make an A-Z of anything to do with Greece. Write a sentence for each and think about presenting your work in the best way possible. You can do both ancient and modern day Greece.

You could add an illustration to each or some of the letters along with small pictures linked to your sentences.

Find out some simple Greek phrases. E.g Hello, How are you? What's your name? etc. Can you make a poster to display them in Greek and English? If you can learn the pronunciation, can you try and teach us at school?

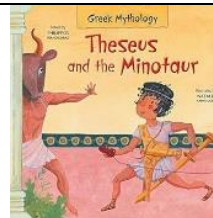

As part of our work on health and wellbeing create a poster detailing the importance of keeping ourselves safe online. Why is it important to do this and what are the ways we can keep ourselves safe when we are online?

In preparation for our topic on inheritance and evolution we will be looking at fossils. You will need to make a fossil, you can use a salt dough and use something like a dinosaur toy or shell to make the impression. When you have made your fossil you will need to create a fossil fact file all about your fossil to tell us all about it.

In Art we will be looking at ancient Greek pottery and the detailed designs drawn on them. Your task is to make your own Greek pot using paper mache or a salt dough. Then you could paint a design on your pot. Or if you prefer you could create a detailed drawing of a Greek pot and colour it.

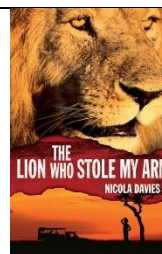

Research a Greek myth and retell the story in the style of a comic strip. You can choose any Greek myth you wish but make sure you include all the important events in the story. If you need a comic strip template please ask your teacher for one.

Each week you will be given some arithmetic questions to complete for maths. Ask you teacher for the new shet each week.

You will also still need to practise your times tables to ensure you know the rapid recall of them up to 12x12. Please make sure you are logging on to TTRockstars at lest 3 times per week to keep practising.

Birch Class Home Learning Spring 1

In English we are exploring the text The lion who stole my arm. Research a wild animal from Africa such as a lion or a zebra and create a fact file all about that animal. Remember to include important details about the animals habitat, what it eats life span and any other fascinating facts you can find out about it.

As well as the above, the following homework should be done every week:

- 1) Times tables – by the end of year 4, it is expected that all children know all their times tables up to x12.
- 2) Spellings/grammar – given out weekly. However, the list of statutory words that you should know by the end of years 3/4 and 5/6 also needs to be learnt.
- 3) Reading – this can be your home/ school reader, a library book, a magazine or comic or something else that you enjoy reading. Keep reading – it will also help you with your writing.
