

Geography

This half term, we will learn about the different biomes that make up our planet. We will explore the different climates, what lives and grows there as well as the features of rainforests

The Roebuck Primary School Curriculum Overview - Spring 2

Sycamore Class

Physical Development

This half term our PE sessions will focus on gymnastics. They will continue to take place on **Tuesdays**. Full PE kits should be worn all day on this day. That includes the red PE t-shirt, black shorts and jogging bottoms, school jumper and pumps.

DT

In Design Technology we will be making our own bag that a hunter gatherer could use to gather items during the Stone Age. We will investigate different bags that we use today then design and make our own bags.

If you have any questions or concerns, please do not hesitate to get in touch via class dojo and we will get back to you as soon as possible.

Miss Mortimer & Mrs Helm

English

In our English lessons we will explore the traditional tale: Rumaysa (a story based on Rapunzel). We will explore the text, focusing on vocabulary and sequencing as well as exploring the characters thoughts and feelings by generating questions and making predictions. We will end the unit by creating our own version of a traditional tale.

We will be continuing our new spelling scheme which the children have really embraced. Ask them all about their new techniques and games that have helped them learn their spelling patterns and rules.

PSHE

In PSHE we will look at managing risks. We will investigate what risk is in different scenarios and how to manage it.

Mathematics

In Maths we will be learning the column method for addition and subtraction as well as completing a unit on looking at the patterns in the 2,4 and 8 times tables. We will continue to focus on times tables daily as well, so it's very important the children continue to practise these at home both on TTRockstars and using the times tables sheets you were given at Parents' evenings.

Homework - Children can complete the tasks on the grid in any order and either bring work into school when they have completed a task or upload to Class Dojo.

Reading books need to be brought back in to school every day. Make sure you are *reading at home at least 3 times per week*.

Science

In Science we will be continuing our learning about plants. We will be looking how water is transported around the plant as well as investigating how the flower is important in the plant life cycle.
